

Preliminary Programme

Friday 4 June 2021

10:00-10:15 Welcome and introduction E. Mayer
10:15-10:30 Developing concept and definition of CTEPH G. Simonneau

Plenary 1: Pathophysiology, epidemiology (Chairs: M. Delcroix and G. Simonneau)

10:30-10:45 Early diagnosis of CTEPH after acute PE, pre and post COVID E. Klok
10:45-11:00 What have we learned from GWAS? M. Toshner
11:00-11:15 The role of the bronchial circulation and microvasculopathy E. Fadel

Coffee break (potentially including opportunity for virtual and face-to-face discussions)

Plenary 2: Diagnosis and imaging (Chairs: J. Pepke-Zaba and E. Fadel)

11:45-12:00 Mechanisms of cardiac dysfunction in CTEPH A. Vonk Noordegraaf
12:00-12:15 Beyond V/Q scan: cutting edge imaging modalities N. Screation
12:15-12:30 How to select treatment modalities – PEA vs BPA? E. Mayer

Lunch break

Plenary 3: Pulmonary endarterectomy (Chairs: E. Mayer and N. Kim)

15:00-15:15 Segmental/subsegmental endarterectomy M. Madani
15:15-15:30 Management of peri-operative complications D. Jenkins
15:30-15:45 Simulation-based CTEPH training O. Mercier

Coffee break (potentially including opportunity for virtual and face-to-face discussions)

Plenary 4: Balloon pulmonary angioplasty (Chairs: H. Matsubara and I. Lang)

16:15-16:30 State of the art techniques and complication management H. Matsubara
16:30-16:45 BPA learning curve: the French experience P. Brenot
16:45-17:00 International BPA registry N. Kim

INTERNATIONAL CTEPH CONFERENCE 2021

4-5 June 2021
Bad Nauheim, Germany

ICA International
CTEPH
Association

Saturday 5 June 2021

Plenary 5: Medical and multimodal therapy (Chairs: D. Jenkins, M. Delcroix)

10:00-10:15	Role of medical therapy in CTEPH	A. Ghofrani
10:15-10:30	Medical therapy before and after BPA?	I. Lang
10:30-10:45	Medical vs BPA (RACE)	X. Jaïs
10:45-11:00	Multimodal interventions	C. Wiedenroth

Coffee break (potentially including opportunity for virtual and face-to-face discussions)

Plenary 6: Hot topics (Chairs: M. Madani, I. Lang)

11:30-11:40	Anticoagulant options in CTEPH	M. Hoeper
11:40-11:50	CTED: exercise haemodynamics and treatment evidence	S. Guth
11:50-12:00	Pulmonary artery denervation after PEA	A. Romanov
12:00-12:10	Destination 2024	M. Humbert
12:10-12:40	Discussions	all
12:40-12:50	Closing remarks (including poster award)	N. Kim
